***Reissue Applications***

1. The original patent, or a statement as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.

***Allowable Subject Matter***

2. Claims 6-11 contain allowable subject matter over the prior art of record.
3. The following is a statement of reasons for the indication of allowable subject matter:

The claimed invention is directed to a signal transmission apparatus. The independent claims identify the feature of "modulating the first data stream without being interleaved, to an m-level VSB modulated signal and modulate an interleaved second data stream to an n-level VSB modulated signal, n being an integer larger than m, wherein the first data stream has information representing the value of n; and a transmitter operable to transmit the m-level VSB modulated signal and the n-level VSB modulated signal". The closest prior art, Lane et al discloses a conventional transmitting/receiving apparatus for transmitting and receiving encoded video data, either singularly or in combination fails to anticipate or render the above underlined limitations obvious.
